

Full List of Orbi Customer Service Numbers in USA

If you need help with your Orbi device—whether it's setup, troubleshooting, or other assistance—Netgear's primary customer support number is:

[Orbi Customer Service Number](#) [Chat With Us - 24x7 Available](#)

This is the main line for home users needing support for Orbi and other Netgear products. Upon calling, you'll encounter an automated menu. To direct your inquiry properly, follow the prompts:

- Press **1** for Technical Support
 - The system will guide you to press **3** specifically for Orbi-related support
-

Additional Support and Contact Options

1. Live Chat & Email Support

- You can chat with support agents or send an email request via Netgear's official [Contact Us] interface—or use the MyNETGEAR portal.

2. Support through the MyNETGEAR Interface or App

- Log in to your MyNETGEAR account, register your product, and select **Get Support** or **Request Hardware Support**.
- Alternatively, open the **Orbi app**, go to the support menu, and choose between **Chat Support** or **Phone Support**.

3. Regional or Business-Specific Options

- For business product or reseller inquiries,
 - The corporate office number, though it's typically reserved for official or media inquiries.
-

Tips for Calling Effectively

- **Best time to call:** According to observations, **Tuesdays** offer a good balance of shorter wait times and manageable call volumes, while **Sundays** may be the quietest.
 - **What to prepare:** Have your **Orbi model number** handy—it's usually on the bottom of your device—as the automated system may ask for it.
-

Final Thoughts

The **NETGEAR** Orbi Customer Service Number is your go-to for Orbi-related help. It's accessible 24/7, and the prompts make it easy to reach the correct department. For added convenience, you can also use chat, email, or app-based support, especially if you're outside the U.S., prefer typing, or need multimedia assistance.

Let me know if you'd like help navigating the app support options or locating your Orbi model number for faster service!
